Attending this seminar will provide information on the widely used ForeFlight electronic flight bag (EFB) and flight planning applications. The seminar will offer comprehensive training on the use of ForeFlight, with a focus on essential regulations and techniques for flight planning in the aerospace environment.

The seminar's pace will be reasonable, ensuring attendees thoroughly understand ForeFlight's functionality without feeling overwhelmed.

Attendees can tailor the content to their needs by posing questions and contributing their own tips and tricks. Attending will undoubtedly enrich your understanding of ForeFlight while learning from other pilots' collective knowledge.

Directions: This presentation will be held on the first floor at the Fixed Base Operator (FBO) facility. See Map Link
